Room Design Inspiration

Avant-Garde Design

Modern Japanese twist of clean lines, with bold innovative contemporary design.

Peak design is based on contemporary re-mixing traditional Japanese influences with avant guard fashion and art. The overlap and contradiction of Western and Japanese styles creates an interesting unique new interpretation of both in this mountain setting.

Local Culture

Incorporating traditional Japanese rooms like Tatami rooms

Local culture is reinterpreted, artistry of calligraphy for instance is incorporated in the carpet designs. Brush strokes as grand gestures and a cocktail of reinterpreted traditional patterns with Japanese avant guard fashion

Japanese Painting in the Room

A Western 'action painting' meets Japanese calligraphy craftsmanship, the painting is a stylised version of the Japanese character for 'dream' as if its drawn with an enormous brush

Materials in the Room

Wood, natural, upscale and premium, touches of local Japanese culture used in a modern way

A palette of mountainous, Alpine timbers combined with touches, comfortable bespoke fabrics of Japan (modern collage of traditional pattern) and the West (checkered tartans) Giving a overall warm, cosy inviting mood
